

AXALTA COATING SYSTEMS

Nap-Gard[®]

FBE Rebar Powder Coatings

Designed to Deliver the Protection You Expect and Require.

For nearly 30 years Nap-Gard® REBAR fusion-bonded epoxy powder coatings have provided the corrosion protection required to extend the life cycle of concrete structures in corrosive environments.

Formulated for both pre-fabricated and post-fabricated steel bar, Nap-Gard REBAR is optimized for improved application characteristics, and is designed specifically for concrete reinforced steel. Designed for application for infrastructure protection and preservation with the lowest possible economics.

Benefits:

- » Excellent corrosion protection and chemical resistance
- » Superior chloride permeability resistance – particularly against de-icing salts
- » Reclaimability and Sustainability - near 100% utilization and virtually zero VOC emissions
- » Formulated to increase productivity and tonnage when applied and during fabrication bending
- » DOT Approved by all qualifying states

End Use Applications:

- » Bridge decks
- » Continuous reinforced concrete pavement
- » Parking garages
- » Piers and docks
- » Water towers
- » Columns and parapets
- » Dowels
- » Repair

Products:

7-2750 Green

Designed for post-fabrication bends, 7-2750 provides a consistent film thickness and provides excellent corrosion protection and chemical resistance throughout the length of steel being coated.

Applications:

- » Straight bars
- » Dowel bars and baskets
- » Wire and welded wire reinforcement

Certified to meet the requirements of ASTM A775/A775M by independent testing labs.

7-2732 Purple

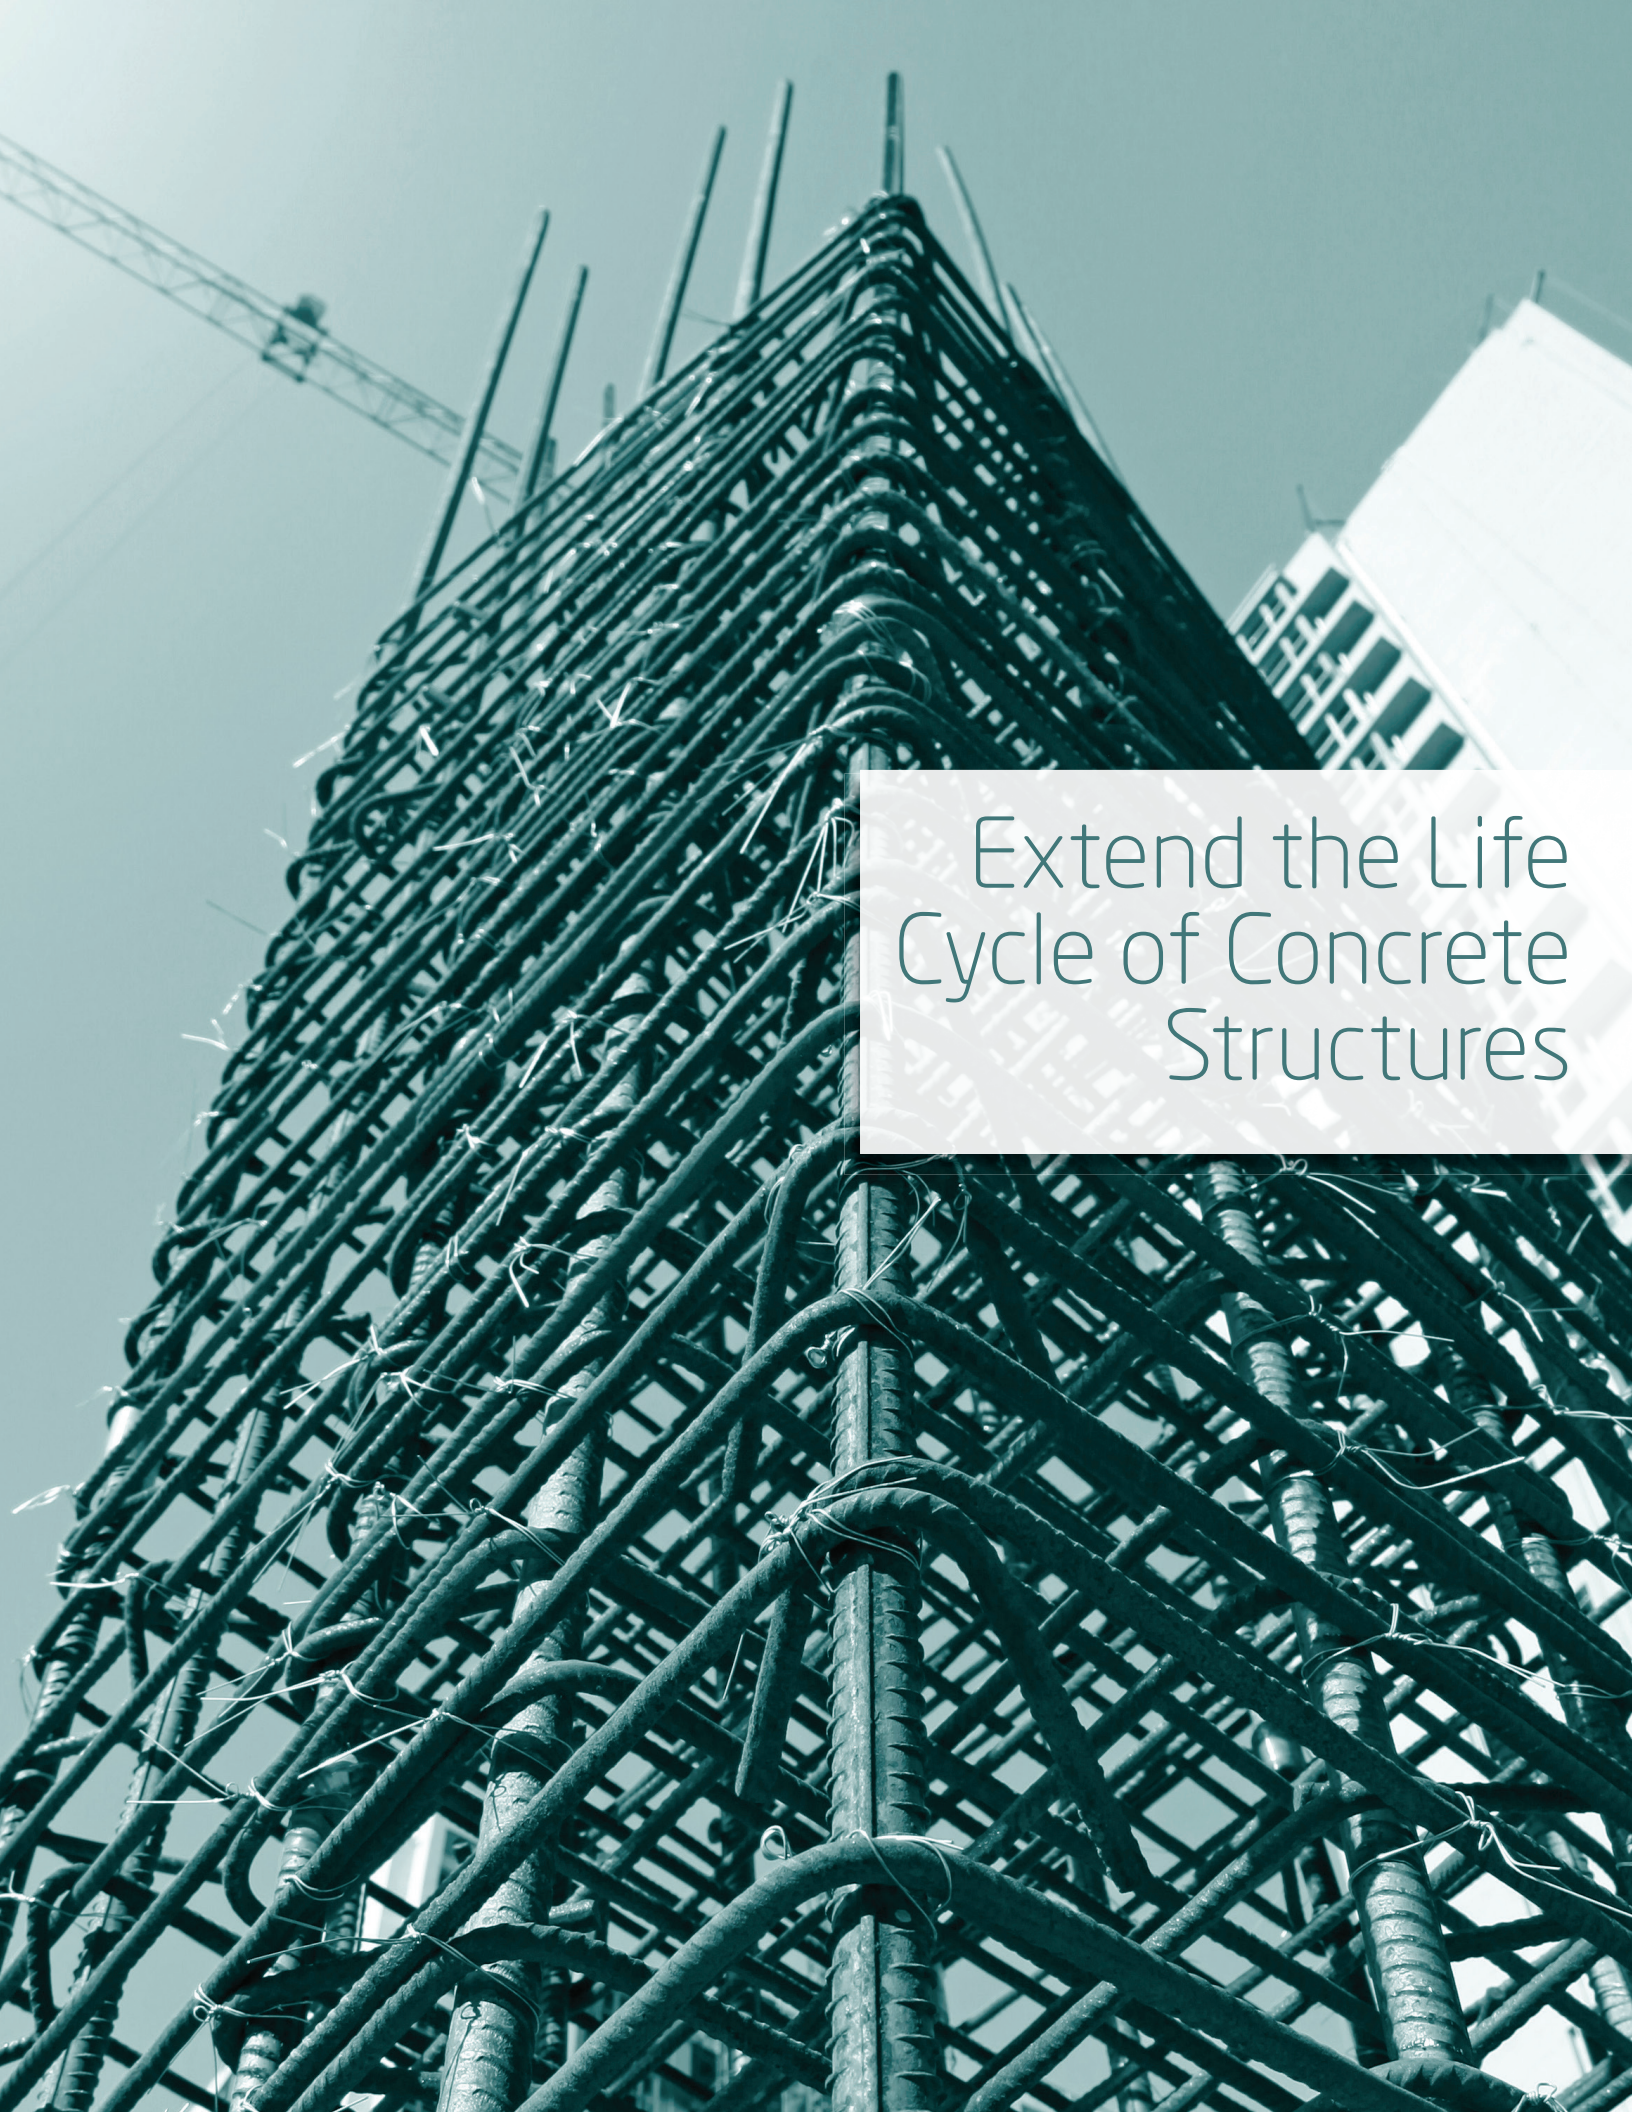

Designed for application to pre-fabricated steel rebar, 7-2732 provides a consistent film thickness and provides excellent corrosion protection and chemical resistance throughout the length of steel being coated.

Applications:

- » Straight bars
- » Dowel bars and baskets
- » Wire and welded wire reinforcement

Certified to meet the requirements of ASTM A934/934M by independent testing labs.

*Also available in gray

Cycle of Concrete
Structures

Axalta Coating Systems is a leading global company focused 100% on coatings. Our goal is to provide customers with innovative, colorful, beautiful and sustainable solutions. On every surface they touch, our coatings are designed to prevent corrosion, increase productivity and enable the materials we coat to last longer.
